

Hello,

It's nice to meet you! We are very happy that you are interested in joining the resistance.

We would like to meet you in person, but before that we must make sure you are the right fit for our cause. We've sent you a special tool, a frequency converter. It should help you solve the next test we planned out for you. Maybe our previous letter to you has something to use it on?

Can't wait to hear from you again!

Ω404

---

Hello again,

You found the correct Frequency and Amplitude. Good job.

What do you think of when you hear Frequency and Amplitude? We think of the radio. Did you know we have our own radio station, through which we use to communicate with each other. Maybe you can manage to find our station?

Ω404

---

It's nice to hear from you!

Congratulations, that's our radio station. Want to know how we convey messages?

We've sent you some cassettes, which consists of our most popular songs on the station. Maybe you have heard of these songs before, regardless we would recommend you check out at least 4 of the songs.

Ω404

---

Good job!

You have overcome every test so far and have proven yourself. We want to meet you soon and already have a city in mind. You can probably figure out which one it is. Maybe our hidden message from cassettes 'darkest night out of sight' could help you?

We believe in you.

Ω404

---

So close!

You found the correct city, but will you find the right address? We have hidden clues to the address in the solutions for every test so far. Can you figure it out? Don't be a stranger, come visit us.

Can't wait to meet you in person!

Ω404

---

Dear old friend!

You are now an official member of Resistance 404, and we are truly grateful for your contribution.

From this day forth, you will play an important role, helping us establish communication lines across the globe and recruit worthy members to join the cause.

Be careful however, the resistance must not be found by the clankers!
